☐ This opinion has been established on the basis of a translation from the original language into the following language _____, which is the language of a translation furnished for the purposes of international search (under Rule 12.3 and 23.1(b)).
2. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:
 - a. type of material
☒ a sequence listing
☐ table(s) related to the sequence listing
 - b. format of material
☒ in written format
☒ in computer readable form
 - c. time of filing/furnishing
☒ contained in the international application as filed.
☒ filed together with the international application in computer readable form.
☐ furnished subsequently to this Authority for the purposes of search.
3. ☐ In addition, in the case that more than one version or copy of a sequence listing and/or table(s) relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.

2.1 INDEPENDENT CLAIM 25

In the light of document D1, the subject matter of independent claim 25 cannot be considered to be inventive (PCT Article 33(3)). The reasons for this are as follows:

prior art discloses a nucleic acid molecule from which the subject matter of claim 25 differs in the point that a nucleic acid molecule having the SEQ ID NO: 6 is provided.

The object to be achieved by the present invention can thus be considered to be providing a nucleic acid molecule coding for a promoter of V-PPase.

The solution can be considered to be the provision of a nucleic acid molecule having the SEQ ID NO: 6.

However, methods are known generally to a person skilled in the art which permit him or her to obtain, starting from a cDNA, a nucleic acid molecule coding for a promoter.

The same applies *mutatis mutandis* to the nucleic acid molecule having the SEQ ID NO: 7.

DEPENDENT CLAIMS 27, 28, 30 AND 31

Dependent claims 27, 28, 30 and 31 do not contain any features which, in combination with the features of any claim to which they refer, meet the PCT requirements for inventive step.
